

Seminário de Doutorado

Tópico: Métodos Bayesianos em Classificação e Regressão Não-Lineares

Professor responsável: Hedibert Freitas Lopes

Período: 18/11/2002 a 17/01/2003 (7 encontros)

Horário: Sextas-feiras - 13:00 as 15:00

Motivação: A organização desse seminário se inspira na estrutura do livro escrito por Denison, Holmes, Mallick and Smith, intitulado *Bayesian Methods for Nonlinear Classification and Regression*, publicado este ano na "Wiley Series in Probability and Statistics". David Denison (Imperial College) e Christopher Holmes (Imperial College) foram ambos orientados por Bani Mallick (Texas A&M University), sendo o primeiro co-orientado por Adrian Smith (Queen Mary, University of London).
